

# Clinical Internship in Optometry

July 2023 - July 2024

## Objective

To provide hands-on experience and enhance patient care management skills through practical-based training under the expert guidance of the LVPEI faculty.

## Program structure

In 13 months of clinical training, each trainee will be rotated through comprehensive and subspecialty clinics for practical-based training.

## Highlights

1. Case-based learning
2. Exposure to vast clinical cases
3. State of the art clinics to practice
4. Case presentations (class 2 clinics)
5. Hands-on training
6. Consuming Knowledge Consciously (CKC) - bridge the gap in theory to support clinical training

## Online application instructions

- Fill the online application form and upload the relevant certificates
- After submitting the application form, pay the online application fee
- Application submission is successful only after making the payment of application charges
- Any incomplete forms (including failing to attach all the above-mentioned documents) will be disqualified
