

International Conference

THE FUTURE IS HERE II

Exploring New Frontiers of Ocular Research

January 9-11, 2025

This session will delve into critical areas including needful collaborations in eye research, breakthroughs in cell and gene therapy, cutting-edge biomaterials, the role of the microbiome, and the identification of novel biomarkers. As we stand at the cusp of a new era in medical science, this meeting will serve as a beacon, guiding us through the complex interplay of innovative treatments, pioneering research, and clinical applications that are reshaping the field of ophthalmology.

SESSIONS:

Funding and Collaborations

Biomarkers and Microbiome

Cell and Gene Therapy

Biomaterials and Bioprinting
