

Diploma in Eye Health Management 2026-27

Course Objective

To impart training in comprehensive eye health management and develop managers who can efficiently and effectively manage eye care services at both the secondary and tertiary levels of care.

Course Structure

The one-year full time, on campus program comprises five modules. Each module begins with classroom-based theory lessons, followed by related practical training at a tertiary or secondary centre. Experienced faculty take the classes, some of whom serve as mentors during the internship.

Course Outline

Module 1: Introduction to the Course

Module 2: Management of Clinical Services

Module 3: Management of Support Services - I

Module 4: Management of Support Services - II

Module 5: Management of Support Services - III
